The activities of the Baptist Mission in Assam have a long history- full of adventure, humility and benevolence.

Dr. V.H. Sword, a member of the Mission, has authentically documented the activities of the Baptist Mission in Assam from 1836 onwards till 1936. By then the Mission had accomplished a sound footing practically in the entire valley as well as most of the hill areas of the North-East region of India. This then is a record of that first century of service by the American Baptists in Assam and the neighbouring areas.
